

# The Respiratory System

1) Label the diagram below using the following vocabulary words:

throat      trachea      epiglottis      lungs      nose / mouth      bronchi  
alveoli      diaphragm

2) Using *red* arrows, draw the path of oxygen-rich air from outside the body to the lungs.

3) Using *blue* arrows, draw the path of carbon dioxide rich air from the lungs to outside the body.

4) Color the areas where the exchange of oxygen into the blood and carbon dioxide out of the blood takes place *green*.
